

# Connecting Data. Empowering Care.

**Advancing Whole-Person Care for Iowa through a trusted statewide health information network.**

Converge Health Iowa is advancing interoperability across the state's health ecosystem - connecting clinical, behavioral health, public health, and social care data to drive measurable health outcomes.

By uniting disparate systems under one trusted network, we empower providers, payers, and public health agencies to make informed decisions that improve the lives of all Iowans.

## Clinical Support & Coordination

### **Health Information Exchange**

Securely connecting clinical, behavioral health, and social care data across the state.

### **Provider Portal**

Centralized access for care teams to view and manage patient information in one place.

### **Alerts & Notifications**

Real-time updates on patient status to enable timely clinical interventions.

### **Secure Messaging**

Direct provider engagement and communication through encrypted channels.

## Operational & Health Insights

### **Bed Availability & Resource Dashboards**

Real-time tracking for state resources to optimize capacity and response.

### **Public Health & Medicaid Reporting**

Streamlined compliance and data submission for regulatory requirements.

### **Analytics & Insights**

Data-driven health improvement across communities with actionable intelligence.

### **Social Care Data Integration**

Incorporating non-clinical data for whole-person care and holistic health outcomes.

**SECURE DATA  
GOVERNANCE  
& CONSENT  
MANAGEMENT**

## IOWA'S HEALTH INFORMATION EXCHANGE

### OUR MISSION

To securely connect health, public health, behavioral health, and social care data across Iowa –empowering care coordination, informed decision-making, and improved health outcomes for all Iowans.

### OUR VISION

A trusted statewide health information network that empowers data-driven health improvement across every community in Iowa.
